

# What are the benefits of attending SI?

SI Sessions provide you the opportunity to:

- ❖ Schedule guaranteed study time
- ❖ Review course material along with peers from the beginning of the term
- ❖ Participate in active learning with classmates as the group processes the text, supplementary readings, and lecture notes
- ❖ Have questions answered outside class by a knowledgeable leader trained in cooperative, active, learning strategies and study skills
- ❖ Learn new study techniques and when to use them most effectively (note-taking, graphic organization, questioning techniques, vocabulary acquisition, and test preparation)
- ❖ Integrate how-to-learn with what-to-learn
- ❖ Earn higher grades (research indicates that students who participate at least three times during the term average one-half to one full letter grade higher and withdraw less than non-SI participants)
