

The background features a bokeh effect of out-of-focus light circles in shades of white, light blue, and yellow. Overlaid on this are large, semi-transparent geometric shapes: a white triangle in the top left, a large orange trapezoid in the center, and a white triangle in the bottom right.

WARTBURG COLLEGE SCHOLARSHIP RECOGNITION PROGRAM

April 7, 2020

SCHOLARSHIP DONOR REFLECTION

Scholarships! An almost magical word when one is considering postsecondary education, and it has been that way for a long time! I remember my senior high school year, 1955-56, and the excitement of choosing my next academic venture.

Wartburg was definitely on the list—and then they started a new scholarship program.

As this period predated local testing programs for SAT, PSAT, etc., a group of us were invited to campus and given a battery of tests. I didn't win the big scholarship, but I was given substantial help for my years at Wartburg.

As some of you know, I wandered the world for much of my working career and during that time saw how scholarships were so beneficial to so many—not only the recipient of the funds, but entire communities and professions were enhanced, enabled, and supported by the work of the scholars. Whether it is a named Wartburg scholarship, a Fulbright, a Rhodes, or AAUW- or Rotary-funded scholarships, they make a huge difference.

My heart sings when I am able to join my gifts with others to continue that enrichment. Thank you for your support, and let us continue to give with joy!

It means the world to me that someone could be so kind and selfless to help a student out with this, and I can't say thank you enough. This also helps motivate myself to push through and to graduate, as well as receive the best education possible. This scholarship lets me know that someone else believes in me, too, and that I have more support than I even know about.
